BW 82 ADJ 205 WT 858 ADG 3.79 February 10 WT 960  
BW+1.9 WW+40 YW+73 Milk+18 Total Maternal+38

This young calf, 88W, is very good and needs time to express his potential. His ADG of 3.79 was second highest in the entire calf crop. A solid predictable pedigree with a young dam 44T that milks volumes and is very maternal.

88W
